

# BIOGRAPHY

Born in Hungary, Laszlo is that perfect hybrid – a Director and also a DoP. After working first as a cinematographer on features he became more interested in commercials and quickly began directing them. His work shows off his exquisite cinematic sensitivity both with terrific imagery and storytelling ambition.

Laszlo is best known for his beautifully shot car commercials on all the top marques including Audi, Lexus, Mercedes, Porsche and VW. But he's that extremely rare breed of DoP who also has a light and human touch in directing talent from professional actors to real people and even sports stars.
